

# HOW SAFE ARE MY ASSETS?

## How do you keep my assets safe?

We protect your cash and investments in two ways – by keeping them separate from our own (known as segregation) and by being part of the FSCS, or Financial Services Compensation Scheme.

### Segregation of assets

In simple terms, this means keeping your cash and assets separate to ours, so we know exactly what belongs to you. This means that if we were to stop trading, your cash and assets could be returned to you.

**Stock:** we register all customer stock we hold in the name of a nominee company. This is a non-trading company and the record of accounts clearly identifies which stocks are held on behalf of customers.

**Cash:** all client money is held in bank accounts that are only used for holding client money. This clearly keeps client money accounts separate from accounts we use for our own money.

## Financial Services Compensation Scheme (FSCS)

If we stopped trading and these segregation arrangements didn't work, customers classed as retail clients would be able to claim up to £50,000 through the FSCS.

This limit applies to the total of all stock and cash you hold across the four share dealing businesses we look after; Halifax Share Dealing, Bank of Scotland Share Dealing, Lloyds Bank Direct Investments, and IWeb Share Dealing. So if you had a Halifax Share Dealing account and an IWeb ISA, then the value of your assets in both accounts would be viewed together by the FSCS.

You can find out more about the FSCS at [www.fscs.org.uk](http://www.fscs.org.uk)
