

Contents insurance checklist

Keeping an updated record of your possessions gives you peace of mind that you have sufficient contents cover. It will also speed along the claims process should you be unfortunate enough to experience a fire, flood, burst pipe or other incident. It's good to be prepared, so we've put together a contents insurance calculator for you to use.

Contents are those items you would normally pack up and put in a removal van if you moved home, so any fixed items such as built in wardrobes or built in kitchen appliances would be covered under buildings. Bear in mind that items listed here may not be automatically covered, and you'd need to check your policy before you made any claim for them.

Contents insurance checklist

Our top tips for a helpful contents list:

- Record as much detail as you can.
- Update your list each time you purchase something of value to you.
- Keep receipts and any corresponding documents in a safe place.
- Take photographs and videos of items to help prove ownership.
- Record how long any guarantee or warranty lasts until.
- Save this contents checklist and all photos or videos on a computer.
- Give a copy of this checklist to a friend or family member for safekeeping.

Item	Date purchased	Price	Make	Size/Description	Model/Serial No.	Notes (Where purchased, location of receipt/photos)
